Proverbs in " Night Thoughts."

The "Night Thoughts," by Edward Young, contain many an apt line that has passed into a proverb." Here is a budget gathered in the North American they more dread for fear of themselves; no Re-"We take no note of time

But from its loss" That is a proverb; so is the pointed

declaration: "All, all on earth is shadow, all beyond,

Is substance ; "

and, still more unquestionably, the folllowing, for it has long since passed into the common parlance of the world, in use among many people who know not the name of its author:

What fitter apologue to the conscience than this imaginative line:

"The spirits walk of every day deceased." An aspiration is heardly proverbial, or we would instance the appeal to Loren-

"O! for the yesterday to come!" Of the following there is no question;

it is declarative, and fulfills every condition of a proverb:

"Love, and love only, is the loan for love." Similar to this is the expression:

"Hearts are proprietors of all applause." So, too, the often remarked creative efforts of the imagination, in enhancing the terrors of death:

"Man makes a death which nature never made."

It is to Young, and not to Goldsmith, that we should assign the sentence—they both have it, but the latter borrowed it: "Man wants but little; nor that little long."

A proverb should be in one line; but the privilege may be extended to so fine a saying as the celebrated-

"Earth's highest station ends in 'Here he lies,' And 'dust to dust' concludes her noblest song." It would be well if some of these loudest in their praises of Young would bear in mind the following:

"'Tis impious in a good man to be sad." The concluding line of the Fourth Night is memorable :

"Men may live tools, but fools they cannot die." What a world of trouble the following might save critics and fault-finders. It

quite puts out the lantern of Diogenes : "Tis vain to seek in men more than man." Solimon has been before Young with

this : "The man of wisdom is the man of years." How oft has the experience of the

world pointed the following: "Death loves a shining mark, a single blow."

There is a nobleness which cannot be too familiar to us as this:

"¡Our hearts ne'er bow but to superior worth." with its accompanying gloss:

"Pigmies are pigmies still, though perched on A great hero, who acquired a reputa-

"And all may do what has by man been done." The alliteration does justice to a sentiment in the following:

"Tis moral grandeur makes the mighty man." There is also much virtue in the lines "The man that blushes is not quite a brute."
"Procrastination is the thief of time,"

you may here anywhere, on 'change, is counting houses, in the streets.

These examples might be multiplied at will. The most cursory perusal of the poem will suggest others which, if not exactly proverbs, bear a strong family relationship to those tenacious dwellers in our memories.

Fabrication of Diamonds .- One of the most curious sights in Paris is said to be afforded by a visit to the vast work-shops of M. Bourguighon, where the whole process of transforming a few grains of dirty, heavy looking sand into a diamond of the purest water, is daily going on, with the avowed purpose of deceiving evrybody but the buyer. The coloring matter for imitating emeralds, rubies and sapphires is entirely mineral, and has heen brought to high perfection by M. Bourguignon. Many operators are employed, whose business it is to polish the colored stones and line the false pearls with fish scales and wax; the scales of the roach and dace are chiefly employed for this purpose. Thep must be stripped from the fish while living, or the glistening hue, so much admired in the real pearl, cannot be imitated.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows Loss of Power, Fatuity, and Epileptic fits—in one of which the patient may expire. Who can say that these excesses are not frequently fol-lowed by those direful diseases—Insanity and Consumption! The records of the insane Asy-lums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Assylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief, ever visits it. Should a sound of the voice occur, it is rarely articulate.

"Magna est Veritas et precalebit."

The wonderful discoveries brought to light by the celebrated Dr. Radway & Co., the eminent Chemists of New York, within the past quarter of a century, have contributed more to the case, comfort, safety, health and longevity of the human race than all other medicinal and the contributed more in the case, when the case, when the case is the case of the c all other medicinal agents in use.

RADWAY'S READY RELIEF. The first of these important and valuable dis-coveries startled the world with wonder and surprise at its rapid efficacy in caring the sick and

topping the most excruciating pains.

The next discovery was the RENOVATING RE-SOLVENT: the only remedy in use that passesses the remarkable properties of cradicating from the system all constitutional maladies inherited by sickly children of diseased parents. These dis-coveries, however, are but LESSER LIGHTS to the GREAT, GRAND DISCOVERY recently made, and which is colculated to recolutionize the present practice of medicine and treatment of disease.—
The result of this great discovery is given to the world in the form of PILLS, elegantly conted with Gum, so as not to offend the most delicate stomachs. They neither sicken nor gripe. Every dose that is taken imparts renewed strength and vigor to the sick and enfeebled. They are called

RADWAY'S REGULATING PILLS.

R. R. RADWAY'S READY RELIEF.

1. One of the most remarkable properties which this all powerful remedy possesses, is that of Electricity. It truly electrifies the whole human system with its healthful influence. Its action upon the poisonous gasses of malaria, whether it be the infecting effluvia of Yellow, Typhus, Swamp. Measles, Scaretor other Malignant Fevers or Ferer Ague, bilious Fever, Cholera, Diarrhea, Dysentery, Flux; or whether the stomach be-comes inflamed and irritated from the poisonous extracts of acid plants, tainted meats, unripe fruits, or green vegetables, a desc or two of Rad-way's Ready Relief will instantly neutralize the poisonous elements that may be in the stomach, allay the most violent inflammations and fortify the whole system against sickness or painfu difficulties.

In all cases, therefore, of Cholera, Cholera Mor bus, Flux, Fevers, &c., there is no remedy so safe and certain to take as Radway's Ready lief. Its electrical powers will, the instant it is

taken, charge the system with health and rigor, 2. AS A COUNTER-IRRITANT, withdrawing the congested blood, which, in cases of Rheumatism, Lumbago, Gout, Neuralgia, Sciatica, inflicts so much pain upon the patient—it acts with the ra-pidity of lightning the instant the relief is rubbed on the parts of the body where there is pain .- it re-establishes an equalization of the circulation of the blood-congestion being withdrawn, inflammation is removed, and pain ceases-

3. As A Diffusive Stimulant .- In case of Weakas, As A Digustic Stimmant.—In case of Weak ness, Languor, Debility, Depression of spirits, Restlessness, Melancholy, Neraons Tremblings, Hysteries, &c., it diffuses its healthful tonic properties throughout the entire system. It re-vives and re-invigorates the aged, crippled, infirm and nervous. It imparts new life and strength. Weak and feeble females who, from continued suffering with *weakening discharges*, are wasting away, Radway's Ready Relief will restore to a sound and healthy condition.

4. Its Cleansing And Healing Properties are quickly proved is eases of wounds, gun shots or stings, bites of dogs, snakes, insects, etc. The moment Radway's Ready Relief is applied to the pained parts, it neutralize the poison, arrests the spread of the infection allays inflammation, and prevents mortification. 5. As A Body Guard To Prerent the system

against sudden attacks of sickness, especially

when epidemics prevail, or in cases of sudden Cramps in the stomach or bowels, Ritions Chohe. Fevers of all kinds, a dose of Radway's Ready Relief will check the pregress of the disease and ons who are obliged to be exposed to the hot Fays of the sun, should, when they feel Sun Sick- It is needless to add that the Association com-

ness, Headache, etc., take a dose of the Relief, also bathe the head with it in some water-this will furnish the most approved modern treatwill settle and strengthen the stomach and with-draw the heated blood from the head—and equalize its circulation through the system.
7. Every family should provide themselves with Radway's Relief. If accidents occur, either from Falls, Burns, Scalds, Bruises, Wounds, ect., an

DR. J. W. CLARKE'S CELEBRATED

STIMULATING LINIMENT. PHIS LINIMENT, wherever used, has gained a reputation over all other Liniments for

he cure of Rheumatism, Nervous diseases of all kinds, Sprains, Strains, Head-ache, Tooth-ache, Burns, Scalds, Baldness, Enlargement of the Spleen, Female Obstructions,

Pains in the Back, &c., &c. In fact, it is good in all cases where an external application will be of service. It should be well rubbed in, or for Sores or Wounds, applied as a plaster. FOR HORSES

It is one of the best of remedies for Sores, Cuts, Sprains, Scratches, &c. Below we append a few of the many Certificates to its efficacy.

This is to certify that I have used Dr. Clarke's Stimulating Liniment with marked effect in Rhe umatic affections, that from the receipt for making the Liniment I know the ingredients to be good and do not hesitate to recommend to the public said preparation for further trial in all cases of Rheumatism and Chronic inflamation. Aug. 12, '58. B. L. HATCH.

ABERDEEN, Miss., July 12, 1858. Dr. J. W. Clarke : Sir : I have used your stim lating Limiment on my horses in six or eight cases, all of which it has cared; one of them was a horse that had his withers bruised and badly swolen; so much so that I thought I could dis tinctly feel the matter, and thought it would have to be lanced, but thought I would try what your Liniment would do for it first. I had it rubbed on it once, and in 12 hours the swelling was reduced, and I continued the use of it, and to my surprise the horse was well and at work in three

I therefore recommend it to all those who use horses or mules, as the best preparation for seres bruises, cuts. scratches, &c. JOE. T. CASON

Dr. Clarke: I take pleasure in recommending our Liniment to the afflicted. I had a negro boy who had not walked a step for six or eight weeks, disease, Rheumatism in foot. I tried varous remedies, prescribed by my Physician, none of which seemed to give any relief; at the request of my friend, J. D. McAllister of Aberdeen, I was induced to try your Liniment. He sent me two boxes, and to my great surprise, long before I had consumed one box the boy was up at work, able to make a full hand. He is now almost if not entirely cured. I do not think he would have been able to do service this year, but for your Liaiment. Yours, Respectfully, THOS. J. DAVIDSON,

The Directors of the Association, in their Auunal Report upon the treatment of Sexual Diseases, for the year ending January 1st, 1858, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhæ, Seminal Weakness, Impotence, Gonorrhea, Gleet, Syphills, the vice of Onanism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrica, or Seminal Weakness, the vice of Onanism, Masturbation or Self-abuse, and other diseases of the sexual organs, by the Consulting Surgeon, will be sent by mail (in a scaled envelope), free of charge, on receipt of two stamps for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, diet, &c., are constantly being published for gratuitons distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment diacovered during the last year, are of great value.
